

How to Set the Course Entry Page in HuskyCT

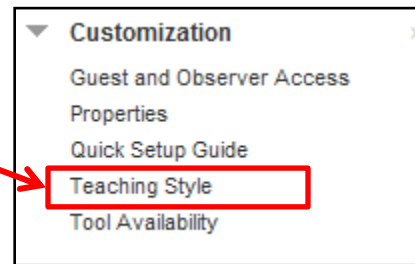

1. Go To Customization

Under "Course Management" select **Customization**

2. Select Teaching Style

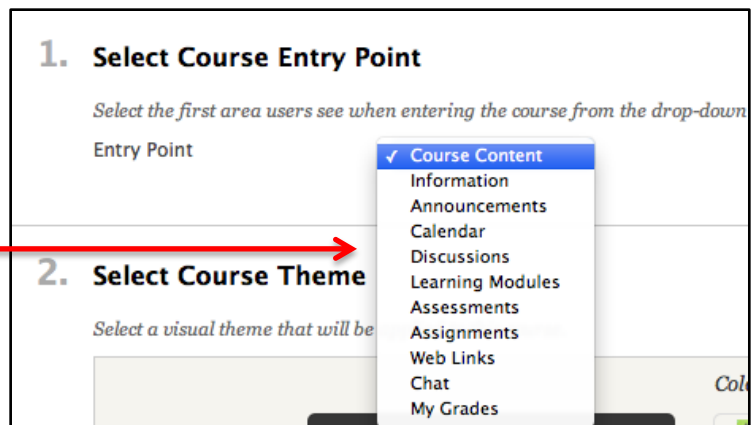

Under "Customization" select **Teaching Style**

3. Choose the Course Entry Point & Click Submit

Use the drop-down menu under **Select Course Entry Point**

Select the Content Area or Tool that students will see first when entering the HuskyCT site

NOTE: The drop-down menu will only list Content Areas and Tools that are visible to students in the Navigation Menu. It will not show hidden links or links to Content Areas that have no content.

Click "**Submit**"
